Ron Shapp
3726 Sherbrooke Dr.
Cincinnati, Ohio 45241

Or

e-mail the application to rshapp@cinci.rr.com.

The mailed applications can be post marked no later than March 13, 2010. Any member who has a son or daughter, grandchild or legal ward being a graduating senior who plans to attend a 2 or 4 year Higher Education College is eligible. The instructions and applications are on the Ohio Chapter web site for download.

Ohio Chapter IAEI Annual Meeting and Professional Development Seminar
Is scheduled for May 3, 4 and 5, 2010 at Kings Island Resort 5691 Kings Island Drive
Mason, Ohio 45040
Let's all try to attend

Mark Rom had a request for a membership list from one of our members last month. We are not permitted by International rules to make our membership list public. When I was building the Web Site I asked for the list to publish it on the site and was turned down.

I asked Mark to verify this with Annett from the IO and she confirmed only the Membership Chair and the current board may view the list: but the list is to be kept confidential to only that select board for only IAEI Divisional Business.

George Foster is in a physical therapy facility to boost up his strength. He is improving but he is still in a lot of pain being caused by the shingles. If they get rid of the shingles he will probably be able to return to our meetings and possibly even co instructing a code course, this is the reason I have not scheduled a class this past month, out of respect for George and hoping for his return. If he does not start showing progress this month I will schedule a series of classes for the fall. That would get us plenty of time for getting the word out. I have been getting a fair number of calls weekly from individuals waiting for our next class.

I have to mention and thank the involvement ERICO and Jack Bene'. They have been giving me complete usage of all their seminars. Jack and I swap presentations from time to time. ERICO audited our article 250 course at the electro expo last year and after the class they authorized us to use any of their presentations, pictures, and power points in any way we see fit. I now have permission to merry their presentations with our power points as I see fit. That will enable us to have a more informative and less boring classes. I feel more confident now if a presenter for one of our meetings cancels last minute I can go into the laptop and pick at least 10 good topics to substitute for that night. Our arsenal of presentations is increasing. I received a number of calls from members that attended

our last code panel discussion. Most felt it was very good and would like to see more of them only the next time have a moderator and more questions.

It is time for the IAEI 2011 NEC
