**Secretaries Report
December 2012**

The Western Reserve Division code Academy completed its 30 hour 2011 NEC course on December 5, 2012 at the Parma fire training facility at 7914 Day Dr., Parma, OH. As reported in the treasurer's report, we brought in \$1535 in student donations, which is probably one of the lowest we've had. This was mainly due to a mix-up with advertisement for this class. Many contractors contacted me requesting Saturday classes; However, I told him I was not able to do on a Saturday classes this year to accommodate them. Most contractors wait to the last minute and preferred to go to a Saturday class and

do 10 hours in one day. Next fiscal year, with the help of an education committee, we will accommodate those at the midyear and at the end year recertification dates.

I would like to thank Mark Rom for all the help you gave me my attending all 30 hours of the NEC course. Mark took care of all registrations as well as assisted me in tearing down all the equipment and packing up so I could get out of there in a reasonable time each night. Mark was able to secure one or two new members, which is always a great achievement.

I would like to thank Jerry Gerber for his leadership this fiscal year and for his assistance in filling in for me in October at the Ohio chapter meeting. I would also like to thank Jeff Grassi for his assistance, and also going to the Ohio chapter meeting in October.

It's that time a year again when the Slate of officers are to be voted on for next fiscal year. As of date, I have not received any written in candidates.

The Slate of officers to be presented to the floor for vote is as follows.

Tom Jarus	President
Kevin Kelly	First Vice President
Mark Rom	Second Vice President
Jeff Grassi	Inspector member
Dick Straka	Inspector member
Dave Bockrath	Associate member
Joe Cenzori	Secretary / Treasurer
Jerry Gerber	Junior Past President

The Slate of officers was unanimously voted in by all the eligible attending members.

Jack Bene'

Thermal Imaging

Jack passed around some of the new fluke thermal imaging devices. Jack's presentation showed how these devices are used in electrical installations as well as energy conservation troubleshooting on building envelopes. I want to thank check personally for stepping up last-minute due to the cancellation of our scheduled speaker. As everyone knows Jack is been one major asset to our division for many years.
