Secretaries Report

On Saturday, December 10, 2016 Western Reserve had the first of the 10 hour code class. Each class is five hours, So far we brought in about \$1000 to the educational fund. There is one last class left for our Educational fund on next Saturday December 17th. Anyone who can come we can use your support. We would like to have a nice sized turnout for this and all proceeds go to the Western Reserve Division educational fund. The certifications will be for building official, master-planned examiner, electrical plans examiner, ESI, residential building official, residential plans examiner, Contractors certification, and professional engineers.

I purchased the 2017 analysis PowerPoint presentation from the I/O. I'll be submitting this as a class sometime next week. The board of building standards will approve only the 2017 analysis as an approved class prior to the adoption of the 2017 NEC.

There were no submissions of any candidates in writing to the secretary for additional candidates two weeks prior to this meeting. The slate of officers as presented at Novembers meeting is as follows:
