May 2014

I would like to Welcome Steve Rigioli from the Ohio Board of Building Standards. Steve will be teaching chapter 1 of the Ohio Building Code. For the members that hold only ESI certifications and that have never had a chapter 1 class, I would suggest that you pay close attention to this topic tonight. I would suggest you to do highlight or take footnotes throughout Steve's presentation.

Due to tonight's presentation our speaker came along way so we are going to keep our business meeting as short as possible so we can get Steve out of here a reasonable hour.

I would like to thank Chris Dirol and the folks from Eaton Corporation for their hospitality last Month. It was interesting to hear of their new products, and the Plant Tour was educational as well. During the tour of the plant it was reported several of our members strayed away from the group and went on the own and took liberties such as handling items throughout the plant. If companies are gracious enough to host us for field trips we should be courteous and stay in the group those we were assigned to. If one wishes to examine something while on the tour they should ask before touching.
