1st: Jeff Grassi
2nd: Sheldon Gardner

Motion to accept the Treasurers Report

1st Tex Combes
2nd Sheldon Gardner

Secretaries Report

I have to apologize for not getting the Enlightner and website updated this month. My main computer that I do all these tasks on has become outdated. I will have everything back online hopefully within the next week.

The Ohio chapter had its 88th annual development seminar in Cambridge Ohio at the salt Fork Lodge. The event consisted of numerous code panels and new questions. There were about six exhibitors, one being the OC ILB. Our very own Jerry Gerber was sworn in at the 88th seminar as president of the Ohio chapter. This will be the first time anyone has been president three times for the Ohio chapter. I was appointed the Ohio chapter membership chairman, as well as the event chairman for the 89th annual seminar that will be here in Cleveland next year.

At the post meeting Jerry made it very clear to the board on what we have in store for next year. The education will be more along the lines of classes and far less code panels. Some of the classes that will be presented will be article 680 swimming pools, Jack Bene' presenting available fault current, Transformers, and transformer vaults. We will have Erico put on their

lightning seminar, and a three-hour article 250 class. One new thing that was added this year was building inspector BBS Credits.

I am happy to announce that the 2014 taxes have been approved by the IO. We are much honored to have Terri Hanna Wien from the electrical league, will be showing us a new interactive presentation tonight on a new app called inspector and solar inspector. I'm sure this will be one very informative presentation.

Dr. Alan Moinec and Mark Rom have registered all Western Reserve Division Classes to the OCILB. Anyone in need of hours contact Mark Rom.
